

ALL GLASS

Collection

All Glass offers a plethora of glass types that can be **supplied custom cut, processed & treated; ready for installation.**

This makes All Glass the cost and time effective solution for architectural projects.

It also simplifies and streamlines the manufacture of furniture, with glass components supplied pre-processed, cut to size and ready to assemble.

The glass can have cut-outs & holes as required for installation and be toughened for safety, with a lead time of just 3-4 weeks and samples supplied within 3-7 days.

Processing Capabilities

- Screen printing / painted glass in any PMS colour or pattern
- Satin etching
- Slumping / Forming
- Custom laminating including acoustic and coloured interlayers
- Pre-packed shower enclosures

Various Applications

- Commercial and residential windows
- Mirrors
- Furniture such as table tops, workstation tops and partitions
- Joinery
- Door inserts
- Wall cladding and lift cars
- Entry foyers, roof lights and balustrades with custom laminating
- Shower screens
- Wash basins
- Splashbacks
- Building façades
- Office partitioning
- Bus shelters and signage using custom printed glass
- Building foyers and reception areas
- Glass flooring and stair treads

Furniture

All Glass is already being used by some furniture manufacturers in Europe due to its price competitiveness, quality and high packing standards. Such manufacturers are taking advantage of the complete customisation and timely delivery of glass pre-cut, processed and undamaged; ready for manufacture.

Formed Vision textured glass

Slumped glass in a range of four dramatic impressions, for truly unique and tactile glass surfaces suiting a host of applications and looks.

Available in clear glass. Or for an even higher quality finish with crystal effect, Ultra-Clear low-iron glass is available on request.

Ideal for furniture, shower screens, splashbacks, office partitioning, wall cladding, internal and external balustrading, lift lobbies and lift cars, facade windows, screening, doors and signage (incorporating custom etched logos).

Pattern Options

Matrix

Chicane

Fortuitous Square

Petite Square

Thicknesses available;
4mm, 6mm, 10mm, 12mm

Clear Glass

A smooth and flat clear float glass that offers high clarity and visibility. A range of processing available; tempered, laminated, insulated, acid etched, printed slumped/formed.

Thicknesses available

3mm 4mm 5mm 6mm 8mm 10mm 12mm 15mm 19mm

Tinted Glass

A range of tinted float glass offering a range of tinted colours and a smooth, flat surface. Available in French Green, Ocean Blue as well as regular European tints with privacy and energy saving benefits.

Deep tempered and laminated processing available.

Thicknesses available

4mm, 5mm, 6mm, 8mm, 10mm, 12mm

Ultra Clear Glass

A high quality low-iron float glass that achieves a colourless, extra clear, crystal-like surface with excellent light transmission.

A range of deep processing available; tempered, laminated, mirrors, printed slumped/formed and more.

Thicknesses available

4mm, 5mm, 6mm, 8mm, 10mm, 12mm, 15mm and 19mm

Laminated Glass

Two panes of glass which can be coupled with a host of different interlayer as required by the project such as decorative, coloured or energy saving; resulting in complete customization, design freedom and superior thermal performance glass.

Ideal for commercial windows, furniture, door, balustrades, partitions, glass roofs, glass flooring and stair treads.

Glass types: Clear float, Tinted, Low-E, Reflective

Standard thicknesses: 3mm, 4mm, 5mm, 6mm, 8mm, 10mm, 12mm

PVB film thickness: 0.38mm, 0.76mm, 1.14mm, 1.52mm

PVB colours: Clear, Grey, Bronze, Blue, Green, White

Customized thicknesses available

Pattern Glass

Available in standard patterns (Aqualite, Nashiji, Mistlite, Rain-B, Kasumi, Moro, Wood), with custom patterns able to be reproduced.

The patterns diffuse light and obstruct visibility from the outside, however the interior roll glass is used to soften, not obscure an object from the outside when viewing it from the inside.

Thicknesses available

4mm, 5mm, 6mm

Specifications

Laminated Glass

Thickness	Minimum Size
6.38mm	2140 x 3300
